INTRODUCTION

Within the framework of national efforts aimed at developing the healthcare system and enhancing the quality of medical services, the Libya International Healthcare Conference and Exhibition will be held from 14 to 17 September 2026 at the Tripoli International Fairgrounds, with the support of the Ministry of Health and the Government of National Unity.

This event comes at a pivotal time when the healthcare sector is experiencing rapid transformations and growing challenges, which necessitate strengthening cooperation and knowledge exchange, showcasing the latest medical innovations and technologies, and exploring global best practices in prevention, treatment, healthcare management, and quality services.

The event serves as a leading national and international platform that brings together healthcare leaders, decision-makers, experts, and practitioners, in addition to companies and institutions specialized in the healthcare sector.

02

Our Vision

The Libya International Healthcare Conference and Exhibition represents a strategic step toward building a modern and resilient healthcare system capable of responding to current demands and keeping pace with regional and international developments, contributing to strengthening health security and improving the quality of life for citizens.

STRATEGIC OBJECTIVES

1

Enhancing the transfer of modern medical knowledge to Libya

By attracting the latest global innovations and linking them to the actual needs of the local healthcare sector.

2

Connecting the Libyan healthcare sector with international markets and technologies

Through opening channels of cooperation with global companies, manufacturers, and research centers.

3

Supporting digital transformation in healthcare institutions

By highlighting digital solutions that can be practically implemented in hospitals and healthcare centers.

4

Improving the efficiency of medical and technical personnel

Through practical workshops and hands-on training on modern devices and technologies.

Encouraging investment in the healthcare sector

And creating an environment that stimulates partnerships between the public and private sectors.

Improving the quality of healthcare services provided to citizens

By presenting solutions that reduce costs, accelerate diagnosis, and improve treatment outcomes.

Bringing together various medical specialties on a single platform

(Medicine – Dentistry – Pharmacy – Nursing – Laboratories – Radiology – Physiotherapy).

5

Discussing the latest scientific developments in each medical specialty

In accordance with modern Evidence-Based Medicine.

6

Contributing to the development of future visions for the healthcare sector

Based on real needs and development capabilities.

7

Formulating scientific and practical recommendations that are implementable

Derived from discussion sessions and workshops, and submitted to the relevant authorities and decision-makers in the healthcare sector.

INTERNATIONAL BOOTHS

| Turkey ← 

| Egypt ← 

| Italy ← 

| Tunisia ← 

MAIN THEMES

Financing and Sustainability of the Healthcare Sector

- Modern healthcare financing models
- Public-private partnerships
- Efficient spending and achieving universal health coverage

Preparedness and Response to Health Emergencies

- Management of health disasters and epidemics
- Countries' experiences in crisis containment
- Building resilient and sustainable systems

Non-Surgical Techniques in Aesthetic Medicine

- Fillers and Botox: safe medical applications
- Non-surgical skin tightening techniques
- Skin rejuvenation and advanced treatments

Laser Technologies and Aesthetic Medical Devices

- Laser applications in dermatology and aesthetics
- Selection of approved medical devices
- Safety in the use of laser equipment

Management of Complications and Complex Cases

- Common complications in aesthetic procedures
- Managing emergency situations
- Correction of surgical and aesthetic errors

Digital Transformation in Healthcare

- Artificial intelligence applications in diagnosis and treatment
- Electronic health records
- Innovation in telemedicine services

Health Policies and Legislation

- Development of national public health policies
- Legal regulation of the healthcare sector
- The impact of governance and oversight in healthcare institutions

Quality Management and Patient Safety

- International standards for healthcare facility accreditation
- Strategies to reduce medical errors
- Promoting a culture of quality in the healthcare sector

Development of the Healthcare Workforce

- Training and qualification of medical and administrative staff
- Challenges and solutions in nursing and specialized care
- Supporting the mental health of healthcare

Innovation and Modern Medical Technologies

- Advanced medical devices
- Big data and analytics in decision-making
- Precision Medicine

Community and Preventive Health

- Health awareness programs
- The role of primary healthcare in prevention
- Combating chronic and infectious diseases

18 The eighteenth edition

Target

Participants for the Conference and Exhibition

First: Government and Official Entities

- Ministry of Health
- Primary Healthcare Departments
- Public hospital and medical center administrations
- Administrative Control Authority and health regulatory bodies
- Health insurance authorities

Second: Healthcare Institutions

- Public and private hospitals
- Specialized clinics and medical centers
- Diagnostic and medical laboratory centers
- Physiotherapy and rehabilitation centers
- Oncology and dialysis centers
- Licensed aesthetic clinics
- Hospitals providing cosmetic surgery services
- Laser and non-surgical treatment centers

Third: Medical and Technical Professionals

- Physicians (all specialties)
- Nursing staff
- Healthcare technicians
- Laboratory and radiology specialists
- Clinical pharmacy specialists
- Emergency and ambulance teams
- Plastic surgeons
- Cosmetic dermatologists
- Non-surgical aesthetic physicians (fillers, Botox, non-surgical lifting)
- Anesthesiologists specialized in cosmetic surgery
- Medical skincare specialists

Fourth: Healthcare Sector Companies and Suppliers

- Medical device and equipment companies
- Medical consumables and supplies companies
- Pharmaceutical and medical product companies
- Health information technology companies
- Digital health and telemedicine solution providers
- Aesthetic medical device companies (laser and non-surgical equipment)
- Certified filler and Botox material companies
- Cosmeceutical companies

Fifth: Supporting Healthcare Service Companies

- Health insurance companies
- Hospital management and operation companies
- Medical logistics companies
- Medical sterilization and maintenance companies
- Medical safety system companies

Sixth: Education and Scientific Research

- Universities and medical colleges
- Health institutes
- Scientific research centers
- Researchers and postgraduate students
- Scientific and medical associations
- Researchers in aesthetic medicine and surgery

Seventh: Investors and the Private Sector

- Investors in the healthcare sector
- Healthcare investment companies
- Funding institutions
- Healthcare entrepreneurs
- HealthTech startups

Eighth: International Organizations and Bodies

- International health organizations
- Humanitarian and medical organizations
- Embassies and health attachés
- International health support programs

The Focus of

The 18th Edition : **Aesthetic Medicine and Surgery**

The 18th edition of the Healthcare Conference and Exhibition focuses on aesthetic medicine and cosmetic surgery, as they represent rapidly evolving medical specialties. The conference will highlight safe medical practices and the latest approved technologies, contributing to improving healthcare service quality and developing this sector according to recognized professional standards.

Why Aesthetic Medicine and Surgery?

Rapid advancement in this specialty

Aesthetic medicine and surgery are witnessing significant development in techniques and treatment methods, which necessitates a specialized scientific platform to present the latest approved medical practices and technologies.

Increasing demand for aesthetic medical services

The growing demand for aesthetic treatments requires raising awareness about safe medical practices and distinguishing between professional medical procedures and unsafe practices.

The need for sector regulation

Focusing on this field supports the Ministry of Health's efforts to regulate aesthetic centers and enhance compliance with professional regulations and standards.

Enhancing patient safety

Highlighting professional ethics, risk management, and infection control in aesthetic centers helps reduce complications and improve service quality.

Improving the efficiency of medical professionals

The conference provides training and knowledge-exchange opportunities for physicians and technicians to enhance their skills and keep up with scientific developments.

Keeping pace with global trends in aesthetic medicine

The conference serves as a platform to explore successful international experiences and apply global best practices suitable for the local environment.

Supporting innovation and modern technologies

Highlighting the role of technologies such as laser, artificial intelligence, and non-surgical techniques in improving results and reducing surgical intervention.

Enhancing investment and professional partnerships

This focus provides an opportunity for companies and investors to connect and establish partnerships that contribute to the organized and sustainable development of the aesthetic medicine market.

BOOKING FORM

Please fill the form below in **BLOCK CAPITALS**

Company Name : _____
 Nationality Of Company : _____ Contact Person : _____
 Position : _____ Mob : _____
 Tel : _____ Fax : _____
 Address : _____
 E-mail : _____ Website : _____

Your Choice Of Stand (Foreign Company)

i would like to book the following stand {please tick all appropriate boxes and indicate the size of stand you require}

▪ **SPACE ONLY** (minimum 12 m²) _____ m² @ \$260 per m² = _____

Includes :space ,aisle cleaning and pavilion security .

▪ **EQUIPPED STAND** (minimum 12 m²) _____ m² @ \$300 per m² = _____

Includes: carpet, rear & side walls, fascia panel with company name and logo in English/ Arabic, 3chairs and 1 table,1 wastebasket, 2 light flashes, exhibition catalogue entry, stand cleaning and security.

Your Choice Of Stand For (Local Company)

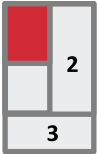

▪ **SPACE ONLY** (minimum 12 m²) _____ m² @ LYD600 per m² = LYD _____

Includes :space ,aisle cleaning and pavilion security .

▪ **EQUIPPED STAND** (minimum 12 m²) _____ m² @ LYD750 per m² = LYD _____

Includes: carpet, rear & side walls, fascia panel with company name and logo in English/ Arabic, 3chairs and 1 table,1 wastebasket, 2 light flashes, exhibition catalogue entry, stand cleaning and security.

The Location Of Tour Stand (Please Tick)

Inline	(open on 1 aisle)	No surcharge			= _____
Corner	(open on 2 aisles – min. 18 m ²)	+15% on space rate			= _____
Peninsula	(open on 3 aisles – min.36 m ²)	+15% on space rate			= _____
Island	(open on 4 aisles – min.60 m ²)	+20% on space rate			= _____

Total Amount = _____

Payment Schedule

payment should be made by signing the official space application contract and receiving invoice form the organiser.

we hereby confirm our participation an telecommunication and information technology and we have been supplied with the organiser's terms conditions and confirm our acceptance of these .the execution of this contract and its receipt by the organiser is evidence of the applicant's agreement to pay the full fees due.
